Bio

BIO

Samuel has done with Prof. Sanjiv Narayan at Stanford since 2021 at the intersection of AI and Cardiovascular Medicine. Samuel Ruipérez-Campillo is an engineer and PhD candidate in Computer Science at the Institute of Machine Learning, ETH Zurich, where his research focuses on machine learning for cardiology. He has been a visiting research fellow at MIT's Institute for Medical Engineering and Science and Harvard Medical School. Previously, he completed an MSc at ETH Zurich and an MEng at UC Berkeley. His studies have been fully funded by several competitive fellowships, including the "la Caixa" Fellowship, the Rafael del Pino Fellowship, and the UC Berkeley Fung Institute Fellowship.
