Stanford

Mia Greeson

Ph.D. Student in Molecular and Cellular Physiology, admitted Autumn 2023

Publications

PUBLICATIONS

- **Dissociation kinetics and avidity gate SARS-CoV-2 neutralization by HR2 stem helix antibodies.** *bioRxiv : the preprint server for biology*
  Crivelli, V., Guerra, C., Abernathy, M. E., Sgrignani, J., Zoppi, G., Greeson, M. L., Sanga, A., Locatelli, P., Cantergiani, J., Cena, B., Rincón, T. C., Lee, Y. E., Eso, et al
  2026

- **Systematic optimization and benchmarking of synchro-PASEF for high-throughput phosphoproteome profiling.** *bioRxiv : the preprint server for biology*
  Brademan, D. R., Mullarkey, A. A., Greeson, M. L., Szvetecz, S., Vitek, O., Blythe, E. E., Huttenhain, R.
  2026

- **Exploring non-canonical GPCR interactions using unbiased proteomics**
  Greeson, M. L., Brademan, D. R., Pu, Y., Marley, A., Li, Q., Polacco, B., von Zastrow, M., Myers, B., Huttenhain, R.
  ELSEVIER.2025
