Roberto S. Gutierrez

- Ph.D. Student in Education, admitted Autumn 2025
- Ph.D. Student in Education, admitted Autumn 2025

Bio

BIO

Roberto Gutierrez is a PhD student in Curriculum Studies and Teacher Education (CTE), specializing in Science, Engineering, and Technology Education. He is also pursuing a cross-area specialization in Race, Inequality, and Language in Education (RILE).

Roberto has a variety of research interests that stem from his decade long teaching experience. A primary focus is the intersection of ethics in science education spaces. This includes the implications in teacher development, curriculum customization and AI integration in science classrooms.
