Bio

BIO

Dr David M. Maahs is the Lucile Salter Packard Professor of Pediatrics, Division Chief of Pediatric Endocrinology, and Associate Chair for Academic Affairs in Pediatrics at Stanford University and the Lucile Packard Children's Hospital. He earned his MD followed by Pediatric Residency at the University of New Mexico. After 3 years on New Mexico's faculty, Dr. Maahs completed a Pediatric Endocrinology fellowship and a concurrent PhD in Epidemiology at the University of Colorado. He remained on Colorado's faculty for 10 years, advancing to Professor of Pediatrics before moving to Stanford. Prior to his medical career, Dr. Maahs received a BA and MA in English from the University of Kansas and was inspired to pursue a medical career after serving in the Peace Corps with assignments in Tunisia and the Central African Republic.

Dr. Maahs' leadership experiences include being a past co-Chair (2013-16) for Protocols and Publications with the Type 1 Diabetes Exchange for which he continues as Director of International Collaborations. This complements his role as President-elect for the International Society of Pediatric and Adolescent Diabetes (ISPAD, 2021-25) and Editor-in-Chief for the 2018 ISPAD Clinical Practice Consensus Guidelines. He served on the Professional Practice Committee for the American Diabetes Association (ADA, 2016-18), which writes the annual ADA Standards of Care. Previously, he served on the ADA Scientific Sessions committee representing the Council on Youth. He has also served on national committees for the American Heart Association, the Pediatric Endocrine Society, and multiple journal editorial boards and review committees.

His scholarly interest is improving care and preventing complications in people with type 1 diabetes (T1D). Along with Dr Peter Chase, he is author of the 12th and 13th editions of Understanding Diabetes, or 'Pink Panther,' which are the most widely used educational books for children newly diagnosed with T1D, distributed internationally by the Juvenile Diabetes Research Fund (JDRF). More specifically, he has conducted epidemiologic studies that help generate hypotheses for clinical studies, including trials to develop artificial pancreas systems to improve glucose control, lower disease burden, prevent the complications of diabetes, and reduce disparities in diabetes care. He is author or co-author of over 350 research publications. His multi-disciplinary research has been funded by the JDRF, the National Institutes of Diabetes and Digestive and Kidney Diseases (NIDDK), the Helmsley Charitable Trust, and the National Science Foundation (NSF).

Dr Maahs is Associate Director for the recently formed and NIDDK P30 funded Stanford University Diabetes Research Center (https://sdrc.stanford.edu). His collaborations extend to his role as Principal Investigator (PI) or steering committee member for NIH funded multi-center clinical trials including the FLEX, PERL, and ACTION studies as well as multiple Artificial Pancreas clinical trials. Education, mentorship, and training leadership includes being Program Director with Dr. Georgeanna Klingensmith on the Barbara Davis Center T32 and K12 training grants in Pediatric Endocrinology while at the University of Colorado. He is the PI on the Stanford NIH funded K12 "Training Research Leaders in Type 1 Diabetes.' Dr Maahs is also the Associate Chair for Academic Affairs for the Department of Pediatrics.

While in the Peace Corps, David met his wife, Christine Walravens, who is also a Pediatrician at Stanford. They enjoy outdoor activities and traveling with their adult children.

CLINICAL FOCUS

- Pediatric Endocrinology

ACADEMIC APPOINTMENTS

- Professor-Univ Med Line, Pediatrics - Endocrinology
- Professor-Univ Med Line (By courtesy), Epidemiology and Population Health
- Member, Bio-X
- Member, Maternal & Child Health Research Institute (MCHRI)
- Member, Stanford Medicine Children’s Health Center for IBD and Celiac Disease

ADMINISTRATIVE APPOINTMENTS

- Associate Dean for Academic Affairs, Stanford School of Medicine, (2025- present)
- Associate Dean for Research, Stanford School of Medicine, (2023-2024)
- Associate Chair for Academic Affairs, Department of Pediatrics, Stanford University, (2021- present)

BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS

- Associate Editor, Diabetes Technology and Therapeutics (2011 - 2013)
- Co-Chair for Protocols and Publications, Type 1 Diabetes Exchange (2013 - 2016)
- Steering Committee, Type 1 Diabetes Exchange (2013 - 2019)
- Editorial Board, Diabetes Technology and Therapeutics (2013 - 2020)
- Editor in Chief, ISPAD Guidelines 2018 (2016 - 2018)
- Secretary-General, International Society of Pediatric and Adolescent Diabetes (2016 - 2020)
- Faculty Fellow, Center for Innovation in Global Health, Stanford University (2016 - present)
- Associate Editor, Diabetic Medicine (2017 - 2019)
- Professional Practice Committee, American Diabetes Association (2017 - 2019)
- Editorial Board, Journal of Pediatrics (2017 - 2021)
- President elect, ISPAD (2021 - 2022)
- Associate Chair for Academic Affairs, Department of Pediatrics, Stanford University (2021 - present)
- President, International Society of Pediatric and Adolescent Diabetes (2022 - 2024)
- Associate Dean for Research, Stanford School of Medicine (2023 - 2024)
- Associate Dean for Academic Affairs, Stanford School of Medicine (2025 - present)

PROFESSIONAL EDUCATION

- Medical Education: University of New Mexico School of Medicine (1997) NM
- PhD, University of Colorado , Analytic Health Sciences/Epidemiology (2010)
- MA, University of Kansas , English (1990)
- BA, University of Kansas , English (1988)
- Board Certification: Pediatric Endocrinology, American Board of Pediatrics (2007)
- Fellowship: University of Colorado Childrens Hospital (2006) CO
- Board Certification: Pediatrics, American Board of Pediatrics (2000)
- Residency: University of New Mexico Pediatric Residency (2000) NM

COMMUNITY AND INTERNATIONAL WORK

- International Society of Pediatric and Adolescent Diabetes (ISPAD)

LINKS
