Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

Dr. Humphreys researches individual and societal level interventions for addictive and psychiatric disorders. He focuses particularly on evaluating the outcomes of professionally-administered treatments and peer-operated self-help groups (e.g., Alcoholics Anonymous), and, analyzing the impact of public policies touching addiction, mental health, public health, and public safety.

CLINICAL TRIALS

- Web-based Intervention to Reduce Alcohol Use in Veterans With Hepatitis C, Not Recruiting

Teaching

STANFORD ADVISEES

Doctoral Dissertation Co-Advisor (AC)

Sam Jaros

GRADUATE AND FELLOWSHIP PROGRAM AFFILIATIONS

- Pain Management (Fellowship Program)
- Psychiatry and Behavioral Science (Fellowship Program)
