Bio

BIO

The natural history of common viral liver diseases of man is poorly understood, despite the fact that chronic liver diseases of man may result in death from liver failure or hepatocellular carcinoma. Our group is interested in understanding:

- 1) the relationship between clinical and virologic events in patients with chronic viral hepatitis B and C.
- 2) the impact of antiviral or immunomodulatory therapy on the natural history of patients with hepatitis B or C.
- 3) The use of new radiologic techniques as diagnostic tools in patients with liver diseases.

CLINICAL FOCUS

- Hepatology (Liver)
- Gastroenterology

ACADEMIC APPOINTMENTS

- Emeritus (Active) Professor, Medicine - Gastroenterology & Hepatology

ADMINISTRATIVE APPOINTMENTS

- William and Dorothy Kaye University Fellow in Undergraduate Education, Bass University Fellows in Undergraduate Education, (2012-2019)

BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS

- Fellow, Center for Innovation in Global Health (2015 - present)

PROGRAM AFFILIATIONS

- Center for Latin American Studies

PROFESSIONAL EDUCATION

- Residency: Stanford University Gastroenterology Fellowship (1981) CA
- Internship: Stanford University Internal Medicine Residency (1978) CA
- Medical Education: New York University School of Medicine (1977) NY
- Board Certification: Gastroenterology, American Board of Internal Medicine (1985)
- Board Certification: Internal Medicine, American Board of Internal Medicine (1980)

5 OF 7

COMMUNITY AND INTERNATIONAL WORK

- Oaxaca on Both Sides of the Border, Oaxaca, Mexico
- Community Health Advocacy Fellowship

Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

The natural history of common viral liver diseases of man is poorly understood, despite the fact that chronic liver diseases of man may result in death from liver failure or hepatocellular carcinoma. Our group is interested in understanding:

- 1) the relationship between clinical and virologic events in patients with chronic viral hepatitis B and C.
- 2) the impact of antiviral or immunomodulatory therapy on the natural history of patients with hepatitis B or C.
- 3) The use of new radiologic techniques as diagnostic tools in patients with liver diseases.

Teaching

COURSES

2018-19

- Community Health Advocacy: MED 161A (Aut)
- Community Health Advocacy: MED 161B (Win)
- Community Health Advocacy: MED 161C (Spr)
- Community Health in Oaxaca: OSPGEN 259 (Sum)
- Foundations for Community Health Engagement: MED 157 (Spr)
- Oaxacan Health on Both Sides of the Border: MED 159 (Spr)

2017-18

- Alternative Spring Break: Rosebud Resilience: Community, Health and Learning in Lakota Nation: MED 202 (Aut, Spr)

2016-17

- Alternative Spring Break: Healthcare of Underserved Communities in Central California: MED 27SI (Win, Spr)

2015-16

- Alternative Spring Break: Healthcare of Underserved Communities in Central California: MED 27SI (Win)
