James P. Cryan

Associate Professor of Photon Science

Photon Science Directorate

Curriculum Vitae available Online

Bio

BIO

I am interested in photo-induced dynamics of atoms and molecules. I am particularly interested in the dynamics of excited states in these systems, and how energy transfer takes place inside a molecule. The relevant timescales for these interactions is typically in the range of attoseconds to picoseconds. These dynamics include photo-triggered chemistry such as non Born-Oppenheimer molecular dynamics and quantum phenomena in strong-field driven systems. I also develop tools for studying these dynamics in the time domain.

My research builds on my extensive experience with ultrafast optical laser science and technology. As a graduate student at Stanford University I participated in the first experiments at the Linac Coherent Light Source, where we studied a new regime of X-ray-matter interactions. I was a postdoctoral scholar at Lawerence Berkeley National Laboratory before returning to SLAC to lead the attosecond science group.

CURRENT ROLE AT STANFORD

Principal Investigator, Stanford PULSE Institute

Atomic, Molecular, and Optical Sciences Department Head, Linac Coherent Light Source.

ACADEMIC APPOINTMENTS

- Associate Professor, Photon Science Directorate
- Principal Investigator, Stanford PULSE Institute

HONORS AND AWARDS

- APS Fellow, American Physical Society (2020)
- William E. and Diane M. Spicer Young Investigator Award, SLAC National Accelerator Laboratory (2012)

BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS

- Atomic, Molecular, and Optical Sciences Department Head, Linac Coherent Light Source, SLAC National Accelerator Laboratory (2021 - present)
- Principle Investigator, Stanford PULSE Institute (2014 - present)

PROFESSIONAL EDUCATION

- B.S., The Ohio State University , Engineering Physics (2007)
- Ph.D., Stanford University , Physics (2012)

SERVICE, VOLUNTEER, AND COMMUNITY WORK

- Physical Review X Editorial Board (January 20, 2025)
