

Robert Lawrence Coy

Research Technical Manager, SLAC National Accelerator Laboratory

Bio

BIO

Robert Coy is the Division Director for the Mechanical Engineering and Technical Support Division in SLAC's Accelerator Directorate. METSD designs, builds, installs, and maintains SLAC's electron accelerator facilities, providing mechanical engineering, ultrahigh vacuum, metrology, and manufacturing expertise for complex accelerator systems. Focus projects include Cryomodules and Undulators associated with LCLS. Robert received a bachelor's degree from the University of Wisconsin in Engineering Mechanics, and has been with SLAC in various capacities since 2016.

CURRENT ROLE AT STANFORD

Mechanical Engineering and Technical Support Division Director, Accelerator Directorate, SLAC National Accelerator Laboratory
