Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

My research examines the nature of self and identity, often in the context of academic motivation and achievement. I'm interested in social factors relevant to motivation, in stereotypes and group differences in school achievement, and in social-psychological interventions to raise achievement and narrow group differences.

Teaching

COURSES

2026-27

- Belonging in a Diverse Society: PSYCH 11N (Win)
- Burning Questions: When They Arise and Why They Matter: PSYCH 288 (Win)
