Stanford

Jennifer Yi-Jiun Pan

- Clinical Assistant Professor (Affiliated), Medicine - Med/Gastroenterology and Hepatology
- Staff, Medicine - Med/Gastroenterology and Hepatology

Bio

BIO

My research interests thus far have focused on immunology, GI cancers, and improving quality of care for patients. I am passionate about understanding the different genetic and lifestyle factors that are involved in GI cancers and other colonic pathology, as well as improving systems of care to better manage the health and improve the outcomes of patients with these diseases. Towards that end, I have been involved in research in Lynch syndrome in order to bridge the gap between our current understanding of cancer risk in this high-risk population and the creation and implementation of guidelines worldwide. I also had the opportunity to work with collaborators in the International Mismatch Repair Consortium at the Department of Colorectal Medicine and Genetics with the Royal Melbourne Hospital in Australia where I saw firsthand the global efforts in the fight against colorectal cancer. In my current role as a staff gastroenterologist at the VA Palo Alto, I oversee the colorectal cancer prevention program. My goal is to continue to be part of and contribute to collaborative clinical and research efforts in order to provide the best care for our patients.

Professional Education:

- Fellowship: Stanford University--Gastroenterology (2016)
- MS: Stanford University--Epidemiology and Clinical Research (2016)
- Residency: Yale-New Haven Hospital--Internal Medicine (2013)
- MD: University of Texas Southwestern Medical Center (2010)
- AB: Harvard College--Biochemical Sciences (2006)

Honors and Awards:

- American College of Gastroenterology North American International GI Training Grant (2016)

Professional Memberships:

- American Gastroenterological Association
-- Delegate, AGA Trainee and Early Career GI Committee (2016-2018)
-- Regional Planner, AGA Regional Practice Skills Workshop – California (2016-2017)
- Northern California Society for Clinical Gastroenterology 2014 – Present
-- Education and Trainee Committee (2021-Present)
-- Communications Committee (2021-Present)
