#### BIO

Dr. Anjali Jotwani is an obstetrician and gynecologist at Stanford Health Care and a clinical assistant professor in the Department of Obstetrics & Gynecology, Division of Gynecology & Gynecologic Specialties at Stanford University School of Medicine.

Dr. Jotwani offers comprehensive obstetric and gynecologic care for patients at every stage of life, from adolescence to menopause. She specializes in obstetric care, preventive care, the perimenopause transition and menopause, and sexual health. Dr. Jotwani's approach is rooted in trauma-informed care and reproductive justice. She is committed to prioritizing patient perspectives, safety, and equity.

Dr. Jotwani's research spans many areas, from the use of genetic testing during pregnancy, to factors that contribute to gynecologic cancers. Her research interests include obstetric trauma, postpartum wellness, and medical student and resident education. Dr. Jotwani has published her work in many peer-reviewed journals, including Fertility and Sterility, JAMA Oncology, and Cell. She has also delivered presentations at national conferences, including the annual meeting of the American Society for Reproductive Medicine.

Dr. Jotwani is a junior fellow of the American College of Obstetricians and Gynecologists and a member of the North American Menopause Society.

#### CLINICAL FOCUS

- Obstetrics and Gynecology

#### ACADEMIC APPOINTMENTS

- Clinical Assistant Professor, Obstetrics & Gynecology - Maternal Fetal Medicine
