Steven Hendler, M.D.
Fellow in Medicine - Gastroenterology & Hepatology

Bio

Steven Hendler is a Bay Area native who completed medical school and internal medicine residency at the Mount Sinai Hospital in New York. His research interests include measuring the effects of intestinal infections among patients with Crohn's disease and ulcerative colitis.

Clinical Focus

- Fellow
- Inflammatory Bowel Disease

Professional Education

- BA, University of California at Berkeley (2009)
- MD, Icahn School of Medicine at Mount Sinai (2013)
- Internal Medicine Residency, Icahn School of Medicine at Mount Sinai (2016)

Personal Interests

- Hiking
- Swimming
- Photography

Research & Scholarship

Current Research and Scholarly Interests

My research interests include using large national databases to measure the clinical effect and costs of intestinal infections in the IBD population.

Current Clinical Interests

- Inflammatory Bowel Disease
