William J Marks
Adjunct Clinical Professor, Neurology & Neurological Sciences

Bio

Dr. Marks received an Honors Bachelor of Science degree in Biology from Marquette University and his Medical Degree from the Johns Hopkins University School of Medicine. He completed his neurology residency and fellowship at the University of California, San Francisco (UCSF). Dr. Marks also holds a Master of Science in Health Care Management degree from the Harvard School of Public Health.

Dr. Marks is Board Certified in Neurology and Clinical Neurophysiology. Prior to joining the Stanford Faculty, he served as Professor of Neurology at UCSF. His clinical and research interests include movement disorders, epilepsy, neuromodulation, health technology, and health care policy.

Dr. Marks also serves as Head of Clinical Neurology at Verily Life Sciences, formerly Google Life Sciences—a translational research and engineering organization focused on improving healthcare by applying scientific and technological advances to significant problems in health and biology. At Verily, Dr. Marks is responsible for developing and implementing strategies and initiatives that will advance the understanding of neurological disorders to ultimately improve patient outcomes.
