

Lynne Martin, MD

Clinical Assistant Professor, Radiology

CLINICAL OFFICE (PRIMARY)

- **Department of Radiology**

300 Pasteur Dr

MC 5105

Stanford, CA 94305

Tel (650) 723-5407 **Fax** (650) 723-1909

Bio

BIO

Dr. Martin is an interventional radiologist with Stanford Health Care Interventional Radiology. She is also a clinical instructor in the Department of Radiology, Division of Nuclear Medicine and Molecular Imaging at Stanford University School of Medicine.

Dr. Martin specializes in interventional oncology (minimally invasive cancer treatments). She diagnoses and treats venous (vein) disease, including venous occlusion (when a vein becomes narrowed or blocked by nearby structures), deep vein thrombosis (DVT), and vascular malformations (abnormal development of blood vessels). She also focuses on the management of cirrhosis (severe scarring of the liver) and portal hypertension (elevated pressure in a large abdominal vein). Additionally, she treats women's health issues, such as fallopian tube blockages, chronic pelvic pain, pelvic venous disease, and uterine fibroids. She is a specialist provider for patients with HHT and pulmonary AVMs as well as patients with vascular malformations (arterial, venous, venolymphatic).

Her research interests include treatments for portal vein thrombosis (clotting), liver cancer, and health care disparities. She has also studied intra-arterial corticosteroid treatment for inflammatory bowel disease. In addition, she has explored the use of bronchial artery embolization (blocking a blood vessel) for the treatment of hemoptysis (coughing up blood) in people with cystic fibrosis.

Dr. Martin twice received the Society of Interventional Oncology (SIO) Scholarship Award. She won first place in SIO's Artificial Intelligence Hackathon. She has also twice received the Etta Kalin Moskowitz Fund Research Award.

Dr. Martin has published in peer-reviewed journals, including the Journal of Clinical Medicine, Neuropeptides, and Journal of Vascular and Interventional Radiology. She has delivered presentations at a number of professional society meetings, including the SIO, the Society of Interventional Radiology (SIR), and the Radiological Society of North America (RSNA).

Dr. Martin is a member of several professional groups, including SIO, SIR, and RSNA. She also serves on committees such as SIO's Education Committee and Stanford's Performance Improvement Committee.

CLINICAL FOCUS

- Interventional Radiology

ACADEMIC APPOINTMENTS

- Clinical Assistant Professor, Radiology

PROFESSIONAL EDUCATION

- Board Certification: Interventional Radiology, American Board of Radiology (2024)
- Fellowship: Stanford University Radiology Fellowships CA
- Residency: Stanford University Radiology Residency (2023) CA
- Internship: Stanford University Dept of General Surgery (2018) CA
- Medical Education: Boston University School of Medicine (2017) MA

Research & Scholarship

CLINICAL TRIALS

- Computational Drug Repurposing for All EBS Cases, Recruiting

Teaching

COURSES

2025-26

- Image-Guided Intervention Workshop: RAD 203 (Spr)

2024-25

- Image-Guided Intervention Workshop: RAD 203 (Spr)
