

## Andrew Reese Moore

Instructor, Medicine - Pulmonary, Allergy & Critical Care Medicine

### CLINICAL OFFICE (PRIMARY)

- **Medical Specialties Clinic**

300 Pasteur Dr A175

MC 5303

Stanford, CA 94305

Tel (650) 723-3633      Fax (650) 725-7523

### Bio

---

#### BIO

I am a physician and researcher who specializes in the management of patients with critical illness. I work clinically in the Intensive Care Units at Stanford Trivalley and Good Samaritan Hospitals. When I'm not in the hospital, I work in the laboratories of Dr. Angela Rogers and Purvesh Khatri and my research focuses on leveraging machine learning on multi-omic data to evaluate the immune response in critical illness. It is striking that despite many years of studying infections, we still treat patients with severe infections the same as we did 30 years ago, with antimicrobials, fluids, and supportive care. The goal of my research is to bring the ideals of precision medicine to critical care. In particular, I am working to better quantify how the immune system responds to infections with the goal of being able to "read" the immune system and treat patients with the medications they need to successfully recover.

#### CLINICAL FOCUS

- Critical Care Medicine

#### ACADEMIC APPOINTMENTS

- Instructor, Medicine - Pulmonary, Allergy & Critical Care Medicine

#### ADMINISTRATIVE APPOINTMENTS

- Associate Program Director, Critical Care Medicine Fellowship, (2025- present)

#### HONORS AND AWARDS

- Stanford K12 Mentored Career Development Program, Stanford University (2025-2027)
- ESCMID International Sepsis Forum Award, ESCMID/International Sepsis Forum (2025)
- Clinical Research Award, Respiratory Diseases Young Investigator's Forum (2024)
- Kelley Skeff Award for Professionalism as a Member of the Housestaff, Stanford University School of Medicine (2019 & 2020)
- Award for Best Clinical Teaching by a Medicine Resident, Stanford University Internal Medicine Residency (2019)
- Julian Wolfsohn Award for Outstanding Performance in IM and Neurology, Stanford University Internal Medicine Residency (2017)

- Herbert R. Farber Award for excellence in Internal Medicine and athletics, University of Virginia School of Medicine (2017)
- Chappell Fellowship, College of William and Mary (2011)

## PROFESSIONAL EDUCATION

- Residency: Stanford University Internal Medicine Residency (2021) CA
- Fellowship: Stanford University Pulmonary and Critical Care Fellowship (2024) CA
- Board Certification: Internal Medicine, American Board of Internal Medicine (2020)
- Board Certification: Pulmonary Disease, American Board of Internal Medicine (2023)
- Board Certification: Critical Care Medicine, American Board of Internal Medicine (2024)

## Research & Scholarship

---

### CURRENT RESEARCH AND SCHOLARLY INTERESTS

I am co-mentored by Dr. Angela Rogers and Dr. Purvesh Khatri. My research focuses on leveraging machine learning on multi-omic data to evaluate the immune response in critical illness. It is striking that despite many years of studying infections, we still treat patients with severe infections the same as we did 30 years ago, with antimicrobials, fluids, and supportive care. The goal of my research is to bring the ideals of precision medicine to critical care. In particular, I am working to better quantify how the immune system responds to infections with the goal of being able to "read" the immune system and treat patients with the medications they need to successfully recover.
