Bio

BIO

Ramrada Lekwuttikarn, MD is a pediatric dermatologist and clinical investigator in the Division of Pediatric Dermatology at Stanford University School of Medicine and Lucile Packard Children's Hospital. She serves as a Research Scientist and Clinical Instructor with expertise in vascular anomalies, genetic skin diseases, and inflammatory skin disorders.

Dr. Lekwuttikarn received her medical degree and pediatric training at Ramathibodi Hospital, Mahidol University, Thailand, and completed subspecialty training in pediatric dermatology at King Chulalongkorn Memorial Hospital in Thailand. She subsequently completed clinical research fellowships at the Children's Hospital of Philadelphia and Stanford University. Prior to joining Stanford, she served as Chief of Pediatric Dermatology and Assistant Professor at Ramathibodi Hospital.

Her work focuses on translational research and clinical trials developing targeted therapies for complex pediatric skin diseases.
