Publications

PUBLICATIONS

- **Routine asymptomatic testing strategies for airline travel during the COVID-19 pandemic: a simulation study.** The Lancet. Infectious diseases
  2021

- **Frequency of Routine Testing for Coronavirus Disease 2019 (COVID-19) in High-risk Healthcare Environments to Reduce Outbreaks.** Clinical infectious diseases : an official publication of the Infectious Diseases Society of America
  2020

- **Projected geographic disparities in healthcare worker absenteeism from COVID-19 school closures and the economic feasibility of child care subsidies: a simulation study.** BMC medicine
  Chin, E. T., Huynh, B. Q., Lo, N. C., Hastie, T., Basu, S.
  2020; 18 (1): 218

- **Projected geographic disparities in healthcare worker absenteeism from COVID-19 school closures and the economic feasibility of child care subsidies: a simulation study.** medRxiv : the preprint server for health sciences
  2020

- **Frequency of routine testing for SARS-CoV-2 to reduce transmission among workers.** medRxiv : the preprint server for health sciences
  2020

- **Forecasting Internally Displaced Population Migration Patterns in Syria and Yemen.** Disaster medicine and public health preparedness
  Huynh, B. Q., Basu, S.
  2019; 1–6

- **Breast lesion classification based on dynamic contrast-enhanced magnetic resonance images sequences with long short-term memory networks.** Journal of medical imaging (Bellingham, Wash.)
  Antropova, N., Huynh, B., Li, H., Giger, M. L.
  2019; 6 (1): 011002

- **Recurrent Neural Networks for Breast Lesion Classification based on DCE-MRIs**
  Antropova, N., Huynh, B., Giger, M., Petrick, N., Mori, K.
Li, H. n., Giger, M. L., Huynh, B. Q., Antropova, N. O.
2017; 4 (4): 041304

A deep feature fusion methodology for breast cancer diagnosis demonstrated on three imaging modality datasets. *Medical physics*
Antropova, N. n., Huynh, B. Q., Giger, M. L.
2017

Huynh, B. Q., Li, H., Giger, M. L.
2016; 3 (3): 034501-?
