Bio

BIO

Dr. Leas develops and applies methods in computer science and statistics to study a broad range of health topics, including tobacco use, climate change, gun control, distracted driving and mental health. His work has appeared in outlets across medicine and public health, including JAMA Internal Medicine, American Journal of Preventive Medicine, and the American Journal of Public Health.

PROFESSIONAL EDUCATION

- Doctor of Philosophy, University of California San Diego, Public Health: Global Health (2017)
- Masters of Public Health, University of California Los Angeles, Epidemiology (2013)
- Bachelors of Arts, University of California San Diego, Sociology: Science and Medicine (2011)
