Kaitlin Dent
Clinical Research Coordinator Associate, Psych/Public Mental Health & Population Sciences

Bio

BIO
Kaitlin Dent is a Clinical Research Coordinator Associate at the Center for Behavioral Health Services and Implementation Research in the Department of Psychiatry & Behavioral Sciences. Her primary research focus is behavioral health integration in primary care. Her background is in mental health counseling, with a strong foundation in suicide prevention research. She brings a passion for reducing the stigma surrounding mental health treatment, and an excitement for furthering the integration of behavioral health.
