#### BIO

Dr. Jennifer Hah is triple boarded in anesthesiology, pain medicine, and addiction medicine. She is an Associate Professor in the Division of Pain Medicine, Department of Anesthesiology, Perioperative, and Pain Medicine at Stanford University. As a clinical epidemiologist and physician-scientist, she leads multiple multicenter clinical trials and was the top NIH-funded PI in Anesthesiology in 2023. Her research examines persistent pain and opioid use after surgery and explores interventions to encourage postoperative opioid cessation. Her research program also includes examining mechanisms of neuromodulation for the treatment of chronic pain. She is the Co-director of the Stanford Pelvic Pain program and the PI of the SPARKLE (Stanford Pain Alleviation through Research and Knowledge for Long-term Efficacy) Lab.
