

Dr Kelvin Liu

Research Scientist, Center for Sustainable Development and Global Competitiveness

Bio

BIO

Dr. Kelvin Liu is a Research Scientist at Stanford University. He holds a Ph.D. in Engineering from the University of Cambridge and completed his postdoctoral research at the University of Chinese Academy of Sciences. He also obtained dual master's degrees from the University of Cambridge and Johns Hopkins University. Dr. Liu has previously served as an Industrial Associate at the Institute for Manufacturing, University of Cambridge. He has also served as a Partner Expert with the United Nations Industrial Development Organization (UNIDO), a lecturer in UNIDO's Eco-Design Leadership Program.

Dr. Kelvin Liu has led and participated in over 15 major research projects funded by the European Union, the UK's Engineering and Physical Sciences Research Council (EPSRC). His research spans artificial intelligence, technology innovation, strategic management, and industrial sustainability. He has published more than 20 papers in SCI/SSCI-indexed journals, holds three invention patents, serves as a reviewer for multiple international journals, and has delivered over 20 invited talks at international conferences and university seminars.
