Professional Overview

BIO

Dr. Jessica Buesing is a board-certified internal medicine physician dedicated to providing empathic, honest, and compassionate patient care. Before joining Menlo Medical, she cared for veterans as a hospitalist at the Palo Alto VA. Prior to that, she completed her internal medicine residency and chief resident year at Stanford.

Her professional interests include improving health span and quality of life, chronic disease prevention and management, obesity medicine, lipid management and cardiovascular risk reduction, comprehensive cancer survivorship care, mental health support, women's health, and addiction treatment. She is committed to personalized medicine and emphasizes shared decision-making, recognizing that effective healthcare must be tailored to each patient's unique circumstances. Outside of work she enjoys exercise (especially Barry's Bootcamp!), playing piano and singing, camping, travel, and spending time with her husband, two children, and cats.
