Stanford

Arati Jairam Thodla, NP AOCNP

Professional Overview

BIO

Arati Jairam-Thodla, NP, AOCNP, is the Lead Advanced Practice Provider (APP) at the Stanford Women's Cancer Center, where Arati has practiced for over 13 years. With more than 20 years of experience as an APP in oncology, Arati is a dedicated nurse practitioner specializing in gynecologic oncology, with extensive expertise in managing patients undergoing active treatment, including chemotherapy and clinical trials, across both ambulatory and inpatient settings. Arati holds advanced oncology certification and is deeply committed to delivering high-quality, patient-centered care.

Prior to joining Stanford, Arati practiced at Massachusetts General Hospital and Northwestern Memorial Hospital cancer centers. At Stanford, Arati plays a pivotal role in both clinical care and research, serving as a sub-investigator on clinical trials within the Gynecologic Oncology division.

For the past 12 years, Arati has led the APP team at the Women's Cancer Center, partnering closely with cancer center leadership to advance patient care delivery and operational excellence. In addition to this role, Arati currently serves as the Interim APP Manager for Cancer Ambulatory Clinics, supporting clinical operations and the ongoing development of APP practice across ambulatory oncology services.
