

Stanford

Michael Loecher

Sr Research Engineer, Rad/Radiological Sciences Laboratory

Bio

BIO

My research focuses primarily on improving methods for measuring flow and motion with MRI. My research interests range from image acquisition and reconstruction to error correction and post processing strategies.

EDUCATION AND CERTIFICATIONS

- PhD, University of Wisconsin Madison , Medical Physics (2015)
- BS, Johns Hopkins University , Physics (2009)

Professional

PROFESSIONAL INTERESTS

My research focuses primarily on improving methods for measuring flow and motion with MRI. My research interests range from image acquisition and reconstruction to error correction and post processing strategies.
