Bio

Lisa W. Chan, MA is the Project Coordinator for the Mental Health Technology Transfer Center (MHTTC) Network Coordinating Office (NCO). The MHTTC NCO is part of the Center for Behavioral Health Services and Implementation Research (CBHSIR) in the Department of Psychiatry and Behavioral Sciences at Stanford University School of Medicine. She is coordinating the work of 12 centers that provide training and technical assistance to the mental health workforce to increase the use of evidence-based mental health prevention, treatment, and recovery support services across the United States.

Lisa has been working in the community providing social services to diverse populations, and conducting research and evaluation. She has also taught psychology as an adjunct instructor on community college campuses serving students from diverse academic, socioeconomic, cultural and ethnic backgrounds.

She has worked and volunteered in the field of domestic violence for over 15 years and has done extensive psychological research in the areas of HIV prevention, adolescent health, and alcohol use disorder. She has also led evaluation projects for domestic violence and youth substance use programs.

CURRENT ROLE AT STANFORD
Clinical Research Coordinator
