

Shweta S. Namjoshi MD MPH

Clinical Associate Professor, Pediatrics - Gastroenterology

CLINICAL OFFICE (PRIMARY)

- **Pediatric Gastroenterology**

730 Welch Rd

2nd Fl

Palo Alto, CA 94304

Tel (650) 491-6686

Fax (650) 721-3822

Bio

BIO

Dr. Namjoshi's career is dedicated to children and adults with intestinal failure, short bowel syndrome, intestinal pseudoobstruction and congenital enteropathy. Her research interests include long term outcomes for people on home parenteral nutrition, iron in gastrointestinal diseases, clinical pathologic correlates in intestinal failure, IPEX, dilated enteropathy, quality of life & nutrition for patients with intestinal pseudoobstruction, and the assessment & treatment of congenital enteropathies.

CLINICAL FOCUS

- IPEX
- PLE and lymphatic diseases
- congenital enteropathy and diarrhea (CODEs)
- Short bowel syndrome
- Intestinal rehabilitation
- pseudoobstruction
- Pediatric Gastroenterology

ACADEMIC APPOINTMENTS

- Clinical Associate Professor, Pediatrics - Gastroenterology
- Member, Maternal & Child Health Research Institute (MCHRI)

ADMINISTRATIVE APPOINTMENTS

- Medical Director Intestinal Rehabilitation & Nutrition Support, Lucile Packard Children's Hospital, (2020- present)
- Medical Director Children's Home Pharmacy, Lucile Packard Children's Hospital, (2020- present)
- Associate Director of Health Policy, Office of Child Health Equity, Stanford University School of Medicine, (2021-2023)

HONORS AND AWARDS

- Honor Roll for Teaching Fellows, Department of Pediatrics (2025)
- Nominee, NASPGHAN Advocacy Award, NASPGHAN (2025)
- Honor Roll for Teaching Fellows, Department of Pediatrics (2024)
- Honor Roll for Teaching Fellows, Department of Pediatrics (2023)
- John Kerner MD Award for Excellence in Teaching Pediatric Gastroenterology Fellows, Division of Gastroenterology (2023)
- Alwin C. Rambar-James B.D. Mark nominee, Department of Pediatrics (2022)
- Learning Health System Registry Proposal Award Winner, LPCH (2022)
- Auxillary Foundation Award, Children's Books for Disability Advocacy, LPCH (2020)
- Mission Zero award, Lucile Packard Children's Hospital (2020)
- High Value Innovation Challenge award for Intestinal Rehabilitation Rounds, Lucile Packard Children's Hospital (2019)
- UCLA Children's Discovery and Innovation Institute Fellow's Research Support Award, UCLA CDI (2018-2019)
- NIH Fellowship Training Grant T32DK07180, NIH (2017-2019)
- Housestaff Quality Improvement Award, UCLA (2014)
- Resident Research Award, UCLA (2014)
- Dean's Merit Scholarship, University of Southern California (2002-2006)

BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS

- Committee Member, NASPGHAN Advocacy Committee (2021 - 2025)
- Invited Reviewer, NASPGHAN Nutrition Section & Research Committee, Grants Review (2020 - 2026)
- Committee Member, NASPGHAN Nutrition Committee (2019 - 2023)
- Invited Reviewer, AGA Council, section on Short Bowel Syndrome (2022 - present)
- Committee Member, NASPGHAN Intestinal Rehabilitation Special Interest Group (2019 - present)
- Committee Member, Intestinal Rehabilitation & Transplantation Association Intestinal Failure Registry Committee (2021 - present)

PROFESSIONAL EDUCATION

- Residency: UCLA Mattel Childrens Hospital Dept of Pediatrics (2014) CA
- Board Certification, Pediatric Gastroenterology, Hepatology, & Nutrition , American Board of Pediatrics (2019)
- Fellowship: UCLA Pediatric Gastroenterology Fellowship (2019) CA
- Board Certification: Pediatrics, American Board of Pediatrics (2014)
- Medical Education: Penn State College of Medicine Registrar (2011) PA

Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

1. The mission of the International Intestinal Failure Registry (IIFR) is to provide the international intestinal rehabilitation and transplant community with accurate data on the outcomes and course of intestinal failure to support research, quality improvement, and policy development. <https://tts.org/irta-registries/irta-ifr>

2. NCT05241444 is the first-in-human, Phase 1 clinical trial will test the feasibility of the manufacturing and the safety of the administration of CD4⁺LVFOXP3 in up to 36 evaluable human participants with IPEX and evaluate the impact of the CD4⁺LVFOXP3 infusion on the disease.

3. Stanford's local Intestinal Failure Registry (SIFR) ensures ongoing assessment and improvement of intestinal failure outcomes and care provided at Stanford in collaboration with the Division of Pediatric Surgery. This registry focuses on clinical outcomes and social developmental outcomes for patients with short bowel syndrome, pediatric CODEs, and pseudoobstruction.

CLINICAL TRIALS

- A Feasibility Study to Evaluate Safety and Probable Benefit of the Eclipse XL1 System for Distraction Enterogenesis in Adult and Pediatric Patients With Short Bowel Syndrome, Recruiting
- BMT 382 - FOXP3 IND Trial, Recruiting
