Dr. Grant Smith is originally from Knoxville, TN. He graduated with a bachelor of science in psychology from Duke University, where he first developed an interest in palliative care. He received his medical degree from Harvard Medical School. He completed residency in internal medicine at the University of California, San Francisco with a focus in primary care, followed by a chief resident year at the Zuckerberg San Francisco General Hospital. He subsequently completed his palliative care fellowship at the University of California, San Francisco. Outside of work, Dr. Smith lives in San Francisco, and he enjoys running in Golden Gate park, cooking, and visiting the many great restaurants in the area. Dr. Smith is excited to be part of the Stanford faculty, where he provides direct patient care while pursuing his academic and educational interests improving patient-centered care across settings, increasing access to palliative care, and promoting clinician well-being.
