Stanford

Cerise Burns

Student Services Administrator, EPS Field Course Coordinator, Alumni Relatio, Earth & Planetary Sciences

Bio

BIO

Cerise Burns has a degree in Geology from Humboldt State University and an interest in all things natural sciences. She has a passion for education and student success and uses her experience to guide our students into roles of future scientists and educators.

Though I hold a degree in geology, I will not return phone calls regarding rock identification. However, I may respond via email if time permits and a photo is included. Please contact your regional rock hounding group or association for better assistance in rock identification.

CURRENT ROLE AT STANFORD

Administrative Associate, Student Services

Course Scheduling and Field Course Planning

Undergraduates & UG Outreach
