

Stanford

David Mallin

Senior Licensing and Strategic Alliances Manager, Physical Sciences, Office of Technology Licensing (OTL)

Bio

BIO

Before joining Stanford as a Licensing Associate, David graduated from the University of California, Irvine with a Ph.D. in Chemical and Material Physics. His multidisciplinary research in the Taborek lab focused on the low-temperature fluid dynamics of superfluid helium. During his graduate studies, he spent over three years as a technology transfer intern in UCI Applied Innovation's Research Translation Group. He was responsible for intellectual property assessment of technologies in physics, chemistry, engineering, and computer science.

EDUCATION AND CERTIFICATIONS

- Ph.D., University of California, Irvine , Chemical and Material Physics
- M.S., University of California, Irvine , Chemical and Material Physics
- B.A., University of San Diego , Physics

Professional

WORK EXPERIENCE

- Fellow - UCI Beall Applied Innovation Research Translation Group
