- Education Advisor, Human and Planetary Health
- Staff, Human and Planetary Health

Bio

BIO

Katie Vogelheim is an Education Advisor and Lecturer at the Human and Planetary Health (HPH) Center at the Stanford Woods Institute for the Environment, where she has designed a series of project-based courses—HPH Action Labs—focused on tackling complex climate and sustainability challenges. She also serves as an Innovation Coach for the Stanford Ecopreneurship program, mentoring entrepreneurial student teams in the early stages of product and market development. Through these roles, Katie actively supports student education and mentorship in developing innovative solutions to address climate change.

With a 30-year business career spanning multiple industries, Katie has been directing funding since 2010 toward global nature-based solutions and early-stage companies committed to sustainability. From 2020 to 2022, she was a Distinguished Career Institute Fellow at Stanford, concentrating on sustainability, climate, and energy.

Katie collaborates across campus to develop curriculum and connect resources that advance human and planetary health initiatives. She also holds additional affiliations, serving on the Board of Dean’s Advisers at the Harvard Chan School of Public Health, the Harvard Data Science Initiative, and Conservation International’s Science and Leadership Councils.
