Bio

BIO

Dr. Lee Sanders is a general pediatrician and Professor of Pediatrics at the Stanford University School of Medicine, where he is Chief of the Division of General Pediatrics. He holds joint appointments in the Department of Health Policy, Department of Epidemiology and Population Health and the Freeman Spogli Institute for International Studies. He teaches in the Human Biology Program and at the Hasso Plattner Institute of Design (Stanford d.School).

Dr. Sanders is a national expert in the science of health literacy, which applies a literacy lens to advancing maternal and child health equity. He directs the Stanford Health Literacy Lab, which aims to address child disparities in health and educational, by redesigning primary-care with youth and families. Dr. Sanders was named a Robert Wood Johnson Foundation Generalist Physician Faculty Scholar to lead the foundational science of health literacy as it applies to advancing maternal and child health equity. He has served as an advisor to the Institute of Medicine, the Centers for Disease Control and Prevention, the Food and Drug Administration, the American Academy of Pediatrics, the Academic Pediatric Association, and the American Cancer Society. Dr. Sanders leads a multi-disciplinary research team that provides analytic guidance to regional, state and national policy makers. A focus of the work is applying health-services, human-centered design and health-behavior science to improve care for children with medical complexity (CMC). Dr. Sanders is PI on several federally funded studies, including RCTs of behavioral interventions. This includes founding the Greenllight Study Team, a long-standing, multi-site collaborative that aims to assess the efficacy of low-literacy, multi-modal interventions designed to prevent early childhood obesity. Another examines the efficacy of GoalKeeper, an AI-driven support for parent-provider coordination is CMC care. He is also PI on a health-literacy project to inform FDA guidance on medication information for adolescents with chronic illness, and co-PI on an HAI-funded initiative to measure and support parent-child interaction in early childhood. In partnership with the Graduate School of Education, Dr. Sanders also co-leads the Population Health in Schools (PHIS) Lab, which links health data with school data to address child health and educational disparities.

Dr. Sanders received a BA in History and Science from Harvard University, an MD from Stanford University, and a MPH from the University of California, Berkeley. Between 2006 and 2011, Dr. Sanders was on faculty at the University of Miami, where he was Medical Director of the Jay Weiss Center for Social Medicine and Health Equity, which fosters a scholarly community committed to addressing global health inequities through community-based participatory research. He also served as Medical Director of Children's Medical Services South Florida, a Florida state agency that coordinates care

for more than 10,000 low-income children with special health care needs, and as Medical Director for Reach Out and Read Florida, a pediatric-clinic-based program that provides books and early-literacy promotion to more than 200,000 underserved children. Since returning to Stanford University, Dr. Sanders has served as Division Chief for General Pediatrics, co-director of the Academic General Pediatrics Fellowship, and Co-director of the Family Advocacy Program, which provides free legal assistance to help address social determinants of child health.

Fluent in Spanish, Dr. Sanders is co-director of the Complex Primary Care Clinic at Stanford Children's Health, which provides multi-disciplinary team care for children with complex chronic conditions. Dr. Sanders is also a father of two daughters, who make sure he practices talking less and listening more.

CLINICAL FOCUS

- General Pediatrics
- Complex Care
- Pediatrics

ACADEMIC APPOINTMENTS

- Professor-Univ Med Line, Pediatrics - General Pediatrics
- Professor-Univ Med Line, Health Policy
- Professor-Univ Med Line (By courtesy), Epidemiology and Population Health
- Member, Maternal & Child Health Research Institute (MCHRI)

ADMINISTRATIVE APPOINTMENTS

- Co-Director, Center for Policy, Outcomes and Prevention, (2013-2015)
- Co-Director, Fellowship in Academic General Pediatrics, (2012-2018)
- Chief, Division of General Pediatrics, (2014- present)

BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS

- Member, Academic Pediatric Society (2022 - present)
- Editorial Board, Journal of Pediatrics (2017 - 2019)
- Member, Academic Pediatric Association (1997 - present)
- Council Member, Society for Pediatric Research (2011 - 2016)

PROFESSIONAL EDUCATION

- Medical Education: Stanford University School of Medicine (1994) CA
- Board Certification: Pediatrics, American Board of Pediatrics (2016)
- MPH, University of California, Berkeley , Epidemiology (2000)
- Residency: Stanford Health Care at Lucile Packard Children's Hospital (1997) CA
- BA, Harvard University , History and Science (1990)

Research & Scholarship

RESEARCH INTERESTS

- Educational Policy
- Equity in Education
- Immigrants and Immigration
- Parents and Family Issues
- Special Education

CURRENT RESEARCH AND SCHOLARLY INTERESTS

As a general pediatrician with a joint appointment in Stanford Health Policy, my research focuses on the field of health literacy. Informed by social cognitive theory, I conduct interdisciplinary research to understand child and parent health literacy as potentially modifiable determinants of child health disparities. I am principal investigator on an NICHD-funded, multi-site, randomized controlled trial to assess the efficacy of a low-literacy, early-childhood intervention designed to prevent obesity in the first two years of life. I recently completed a community-based, participatory research study to examine the effectiveness of child health promotion delivered across a large network of early child-care centers in underserved communities (www.jumpstartforhealth.org). The aim of my current scholarship is to apply the health-literacy model to attenuate disparities for children with chronic illness and special health care needs.

My work is informed by a public-health perspective and by delivering front-line care in underserved communities. Between 2006 and 2011, I served as Medical Director of Children's Medical Services South Florida, Florida's Title V agency that coordinates care for more than 10,000 low-income children with special health care needs. I founded Stanford's Reach Out and Read program, and for ten years served as Medical Director for Reach Out and Read Florida, a pediatric-clinic-based program that provides books and early-literacy promotion to more than 200,000 underserved children. Prior to joining the Stanord faculty, I co-directed the Jay Weiss Center for Social Medicine and Health Equity, which fosters a scholarly community committed to addressing global health inequities through community-based participatory research. I have served as an advisor to the Institute of Medicine, the Centers for Disease Control and Prevention, the American Academy of Pediatrics, the Academic Pediatric Association, and the American Cancer Society. Fluent in Spanish, I maintain an active general pediatrics practice, serving an socioeconomically disadvantaged population of patients, with a focus on behavioral health, obesity prevention, post-NICU care of premature infants, and the care of complex chronic conditions.

CLINICAL TRIALS

- Streamlined Treatment of Pulmonary Exacerbations in Pediatrics, Recruiting
- Addressing Health Literacy and Numeracy to Prevent Childhood Obesity, Not Recruiting
- GoalKeeper: Intelligent Information Sharing for Children With Medical Complexity, Not Recruiting
- Greenlight Plus Study: Approaches to Early Childhood Obesity Prevention, Not Recruiting
