

Maggy Harake

- Ph.D. Student in Chemical Engineering, admitted Autumn 2020
- Student Trainer/Superuser, Stanford Nano Shared Facilities Service Center

Publications

PUBLICATIONS

- **Effect of Networking Density on the Patterning Performance of Molecular Layer Deposited Alucone Electron Beam/EUV Resists.** *ACS applied materials & interfaces*
Than, L. V., D'Acunto, G., Harake, M., Im, H., Kostko, O., Bent, S. F.
2025
- **Enhanced ALD Nucleation on Polymeric Separator for Improved Li-S Batteries.** *ACS applied materials & interfaces*
D'Acunto, G., Shuchi, S. B., Zheng, X., Than, L. V., Geierstanger, E. M., Harake, M., Cui, A., Werbrouck, A., Mattinen, M., Cui, Y., Bent, S. F.
2025
- **Sequential Use of Orthogonal Self-Assembled Monolayers for Area-Selective Atomic Layer Deposition of Dielectric on Metal** *ADVANCED MATERIALS INTERFACES*
Liu, T., Harake, M., Bent, S. F.
2022
