BIO

Michelle Khan is a board-certified obstetrician gynecologist with training in Reproductive Infectious Diseases. She sees patients for obstetrics at Lucille Packard Children's Hospital and for gynecology and dysplasia at Stanford Health Care. She works as a generalist seeing patients for routine Ob/Gyn care, pregnancy and delivery, and in subspecialty clinics focused on HPV-related diseases of the anogenital tract. She sees patients of any gender.

Dr. Khan's clinical expertise is in screening, evaluation and treatment of HPV-related diseases and prevention of HPV-related cancers. She started working in the HPV field in 2003 during a Howard Hughes-National Institutes of Health research fellowship. She completed medical school at Rutgers University – Robert Wood Johnson Medical School, residency in Gynecology/Obstetrics at the Johns Hopkins Hospital, and fellowship in Reproductive Infectious Diseases at the University of California San Francisco. During fellowship she was trained in advanced colposcopy, high-resolution anoscopy (HRA) and treatment of cervical, vulvar, vaginal and anal disease. She is active in professional societies teaching national and international courses in colposcopy and HRA and formulating guidelines for screening and management of HPV-related diseases. She is the President of the ASCCP and the Secretary of the International Anal Neoplasia Society.
