Stanford

Reiko Riley

Director of Education and Program Development, Psychiatry and Behavioral Sciences

Bio

BIO

I have worked with the Department of Psychiatry and Behavioral Sciences since April 2009, starting as an Administrative Associate supporting faculty in the Division of Interdisciplinary Brain Sciences. In my new role I am supporting the department's goal in developing a dedicated, self-sustaining educational and training program akin to clinical and research finance units. As one of my first charges in this role, I am learning what members in the department are currently doing to build upon their successes and create a pathway for other colleagues to do the same.

CURRENT ROLE AT STANFORD

Sr. Education Program Manager

Member of the Diversity, Equity, and Inclusion Advisory Committee (Psychiatry and Behavioral Sciences)
