---

## Joseph Huang

Associate Director of Development, Major Gifts, School of Engineering - External Relations

### Bio

---

#### BIO

Joseph has a blend of industry and academic experiences. He has worked in industry for 10+ years, in both semiconductors (Intel) and aerospace (Boeing). He then worked at universities for another 10+ years, spanning a public university (Arizona State University) and a private university (Stanford). He is also a co-president of NACRO, a professional society dedicated to the people at the interface of industry and academia.

He currently works as a major gift officer at Stanford's school of engineering, connecting people with the students and research happening at the university.
