

Kaden Loring

Ph.D. Student in Applied Physics, admitted Autumn 2021

Bio

BIO

Kaden Loring began his PhD in Applied Physics at Stanford University in September 2021. Loring's research specialization is laser-based diagnostics for fusion-relevant plasmas. Loring received his bachelor's degree from the University of Florida in May 2020 in Physics. He is passionate about research aimed at the development of nuclear fusion for energy. In his free-time, Loring enjoys spending time in nature whenever possible.

HONORS AND AWARDS

- Graduate Research Fellowship Program, National Science Foundation (2020)
- Fulbright Grant, U.S.-Netherlands Fulbright Commission (2022)
- Graduate Research and Internship Program in Germany (GRIP) Grant, The Europe Center–Stanford University (2023)
- National Delegate, Fusion Student Delegation (FuSD) (2025)

EDUCATION AND CERTIFICATIONS

- B.S., The University of Florida , Physics (2020)
