

Kamran Tehrani

Ph.D. Student in Civil and Environmental Engineering, admitted Autumn 2023

Bio

BIO

Kamran Tehrani is a Ph.D. Student in Civil & Environmental Engineering at Stanford University researching planning processes for decarbonized and reliable electricity systems. His work focuses on developing energy system optimization models to support policy analysis. He has previously worked in the public sector as a Shultz Energy Fellow at the California Independent System Operator (CAISO), an analyst at a Community Choice Aggregator (CCA), and within city and county governments. He is a member of the Interdisciplinary Energy Systems research group, advised by Professor Ines Azevedo. He holds a M.S. in Civil & Environmental Engineering from Stanford University and a B.S. in Mechanical Engineering at Northwestern University.
