Stanford

Laura Krueger

Librarian 2, David Rumsey Map Center

Bio

BIO

As the David Rumsey Map Center's Cartographic Metadata Librarian, I manage and catalog all cartographic materials at the center. Additionally, I provide reference assistance and help with the curation of exhibits (both physical and online). A student of English and religious studies by training, I am interested in making the cultural history, influence, and narratives surrounding the cartographic materials to come alive through description.
