## Amy S Ecclesine

Temporary Employee (Nonexempt), SLAC National Accelerator Laboratory

### Bio

---

#### BIO

Amy Ecclesine is ESHQ Manager for Accelerator Directorate and has been at SLAC three and a half years. Prior to joining SLAC she worked at LBNL for 10 years, and LANL for 16.5 years, specializing in ESHQ and radiation safety programs. One of her favorite projects was helping create the radioisotopic heating units for the Mars Rovers to keep the axles heated, electrified, and energized.

#### CURRENT ROLE AT STANFORD

Manager for ESHQ for Accelerator Directorate.
