Bio

BIO

Dr. Emmanuelle Yecies is a board-certified internal medicine doctor at Stanford Health Care, with fellowship training in women's health and medical education. She is also a clinical assistant professor in the Department of Medicine, Division of Primary Care and Population Health at Stanford University School of Medicine.

Dr. Yecies practices comprehensive primary care and preventive care. Her additional training in women's health equips her with the skills to manage complex, gender-specific health needs throughout the lifespan, including hormone management, reproductive health care, and chronic disease management. She provides comprehensive, trauma-informed care that's personalized to each of her patients.

Dr. Yecies' research interests include preventive care and comprehensive chronic disease management for women in different reproductive stages of life, from menstruation through menopause. As a clinician educator, she has developed numerous educational materials for trainees and faculty. She is a frequent lecturer on issues affecting women's health, both locally and nationally.

Dr. Yecies has published her work in peer-reviewed journals, such as Journal of General Internal Medicine, Seminars in Reproductive Medicine, Southern Medical Journal, and BMJ Open. She has authored chapters in medical textbooks and has also presented at national and regional meetings, including annual meetings of the Society of General Internal Medicine (SGIM) and the Alliance for Academic Internal Medicine (AAIM).

Dr. Yecies is a member of SGIM.
