Darius Emrani

Adjunct Lecturer, Management Science and Engineering

Bio

BIO

Darius Emrani is adjunct faculty in MS&E, where he co-teaches MS&E 203: Building and Evaluating AI Products and Agents. He is also founder and CEO of Scorecard AI, building simulation and evaluation infrastructure to train AI agents for labs and enterprises. Previously, he led simulation and evaluation at Waymo and Uber, and worked in avionics at SpaceX. His research interests include sim-to-real transfer, continual learning and user simulation.
