Bio

BIO

Adrian Matias Bacong, PhD, MPH is a postdoctoral research scholar within the Stanford University School of Medicine - Division of Cardiovascular Medicine. His current projects evaluate the utility of racial correction factors in cardiovascular risk algorithms, such as pooled cohort equations. This project is funded through the American Heart Association. His research also explores the intersections of social factors on health, especially among Asian Americans.

His work has been published in the Journal of Epidemiology and Community Health, Journal of Health and Social Behavior, Social Science and Medicine, the Journal of the American Heart Association, and the Journal of the American Medical Association. Dr. Bacong graduated with this PhD in Community Health Sciences from the UCLA Fielding School of Public Health in 2022 and received his MPH in Health Promotion and Behavioral Science from the San Diego State University School of Public Health in 2016.
