Stanford

Majesty Lehua Greer

Resident in Anesthesiology, Perioperative and Pain Medicine

Publications

PUBLICATIONS

- **Postpartum Plasma-Derived Exosomes Confer Mitochondrial Stabilization and Neuroprotection against Ischemic Stroke.** *Research square*
  Sun, X., Xu, L., Greer, M., McMillan, E., Arvola, O., Sultan, P., Ando, K., Min, J. J., Chavda, V., Wolf, J., Mahajan, V., Carvalho, B., Stary, et al
  2026

- **Conditional neuronal deletion of microRNA-141/200c cluster, but not microRNA-181a/b-1 cluster, is protective against experimental stroke in male mice.** *Physiological reports*
  Xu, L., Griffiths, B., Sun, X., Greer, M., Chang, H., McMillin, E., Manis, E., Russo, I., Dean, C. A., Stary, C. M.
  2025; 13 (15): e70505

- **Medical Misinformation and Quality of Public Video Content on Cannabis for Chronic Pain Management: A Cross-Sectional Analysis of the YouTube Platform.** *Journal of pain research*
  Etumuse, B., Greer, M., Onyemachi, J., El-Abed, Y., Kamma, S., Shah, J. D., Tran, H. T., Hussain, N., Pittelkow, T. P., D'Souza, R. S.
  2024; 17: 3577-3586

- **Misinformation Persists in Complementary Health: Evaluating the Reliability and Quality of YouTube-Based Information on the Use of Acupuncture for Chronic Pain.** *Journal of pain research*
  Greer, M., Kamma, S., Tran, H., Etumuse, B., Shah, J. D., El-Abed, Y., Onyemachi, J. O., Hussain, N., Pittelkow, T. P., D'Souza, R. S.
  2024; 17: 1509-1518

- **Sexual Dimorphism Between Aged Mice in Activity of MicroRNA-181a, Bcl2 and Bcl2 m6A Methylated mRNA After Experimental Stroke**
  Stary, C., Greer, M., Xu, L., Sun, X., Murray, I.
  LIPPINCOTT WILLIAMS & WILKINS.2023: 594

- **MicroRNA-494 augments fibrotic transformation of human retinal pigment epithelial cells and targets p27 with cell-type specificity.** *Frontiers in ophthalmology*
  Leng, T., Kamboj, G., Sun, X., Chang, H., Davda, P., Greer, M., Stary, C. M.
  2023; 3: 1168650

- **Inhibition of microRNA-200c preserves astrocyte sirtuin-1 and mitofusin-2, and protects against hippocampal neurodegeneration following global cerebral ischemia in mice.** *Frontiers in molecular neuroscience*
  Griffiths, B., Xu, L., Sun, X., Greer, M., Murray, I., Stary, C.
  2022; 15: 1014751
