Publications

PUBLICATIONS

- **Sexual Dimorphism Between Aged Mice in Activity of MicroRNA-181a, Bcl2 and Bcl2 m6A Methylated mRNA After Experimental Stroke**
Stary, C., Greer, M., Xu, L., Sun, X., Murray, I.
LIPPINCOTT WILLIAMS & WILKINS.2023: 594
- **MicroRNA-494 augments fibrotic transformation of human retinal pigment epithelial cells and targets p27 with cell-type specificity.** *Frontiers in ophthalmology*
Leng, T., Kamboj, G., Sun, X., Chang, H., Davda, P., Greer, M., Stary, C. M.
2023; 3: 1168650
- **Inhibition of microRNA-200c preserves astrocyte sirtuin-1 and mitofusin-2, and protects against hippocampal neurodegeneration following global cerebral ischemia in mice.** *Frontiers in molecular neuroscience*
Griffiths, B., Xu, L., Sun, X., Greer, M., Murray, I., Stary, C.
2022; 15: 1014751
