Bio

BIO

Elisabeth Bik, PhD is a Dutch-American microbiologist who has worked for 15 years at Stanford University and 2 years in industry. Since 2019, she is a science integrity volunteer and consultant who scans the biomedical literature for images or other data of concern. She has found problems in over 9,000 scientific papers, and her work resulted in over 1,800 retractions and another 1,200 corrections. For her work in science communication and exposing research misconduct, she received the 2021 John Maddox Prize and the 2024 Einstein Foundation Award.

She is currently a Stanford METRICS affiliate.
