

Alexandra Sasha Anronikov

Life Science Research Professional 2, Multispecialty Anesthesiology

Bio

BIO

Honors graduate from Cornell University with a major in biological sciences and a minor in business. Passionate about translating findings in immunology, microbiology, and biochemistry into clinically relevant outcomes. Strong interest in the intersection of science and business.

CURRENT ROLE AT STANFORD

Researcher in the Gaudillière Lab, Department of Anesthesia. Currently conducting CyTOF experiments, clinical research coordination, sample processing, and data analysis to integrate clinical findings with experimental results and advance understanding of immune adaptation. Current studies look at how the human immune system responds to physiological stressors like traumatic injury, stroke, pregnancy and pregnancy-related complications.

SERVICE, VOLUNTEER, AND COMMUNITY WORK

- Entrepreneurship Olympiad for high school students
