Publications

PUBLICATIONS

- **A multi-omics map of diabetic nephropathy reveals c-Jun as a driver of tubular injury and metabolic stress.** *bioRxiv : the preprint server for biology*
  Deng, Q., Liu, Y., Bracey, N. A., Wang, Y. C., Wadsworth, P. A., Afrin, M., Santoro, M., Chen, S. Y., Wu, J. C., Charu, V., Wernig, G.
  2026
- **Trypanosoma brucei TEL2 inhibits VSG switching and protects PIKKs from the 26S proteasome-mediated degradation** *MICROBIOLOGY SPECTRUM*
  Sayeed, S., Kushwaha, P. P., Afrin, M., Li, B.
  2026: e0351625
- **Spatial Characterization of Molecular Pathways Suggests the Dysregulation of LGR5 Expressing Fibroblasts in Patients with sclerodermatous Chronic Graft-Vs-Host Disease**
  Afrin, M., Nasr, S., De Souza, C., Howitt, B., Mueller, A., Arai, S., Shizuru, J., Wernig, G.
  ELSEVIER.2024
- **The RRM-mediated RNA binding activity in T. brucei RAP1 is essential for VSG monoallelic expression.** *Nature communications*
  Gaurav, A. K., Afrin, M., Yang, X., Saha, A., Sayeed, S. K., Pan, X., Ji, Z., Wong, K. B., Zhang, M., Zhao, Y., Li, B.
  2023; 14 (1): 1576
