Stanford

Christina Maria Miranda

Resident in Psychiatry and Behavioral Sciences - Child & Adolescent Psychiatry and Child Development

Bio

BIO

I am a Medical Degree candidate at Stanford University. I am originally from Milford, New Jersey. In 2021, I graduated with a bachelors degree in Neuroscience from the University of Pennsylvania. I am interested in pursuing a career in eating disorder treatment and research. I am also the co-founder and CEO of a Philadelphia-based 501(c)(3) nonprofit organization called Body Empowerment Project. We deliver educational workshops related to body image and self-esteem to Philadelphia public school students using a near-peer mentorship model and a validated body-positive curriculum.
