Stanford

Margaret Claire Nikolov

Director of Quantitative Research, Clinical Excellence Research Center (CERC) Operations

Bio

BIO

Dr. Meg Nikolov joined CERC in July 2022 as Senior Manager of Quantitative Analysis. Prior to CERC, Meg led the Technical Consulting and Advanced Analytics team, National Market Research at Kaiser Permanente, where her work focused on access to care and on telehealth during the COVID-19 pandemic. Prior to relocating to the West Coast, Meg was Assistant Professor in the Math Department at the United States Naval Academy. At the Naval Academy, Meg coordinated and taught the statistics and probability courses, co-taught the capstone research course in quantitative economics, advised student research projects, and collaborated with faculty on interdisciplinary research. Meg continues to collaborate on research exploring gender and racial bias in professional performance evaluations. Meg received her Bachelor of Science in Statistics and Biometry from Cornell University and her PhD in Biostatistics from Harvard T.H. Chan School of Public Health.
