Heather Sydney Day, MS

Biostatistician 2, Stanford-Surgery Policy Improvement Research and Education Center

Bio

BIO

Heather S. Day, MS, is a Biostatistician for the Stanford-Surgery Policy Improvement Research & Education Center (S-SPIRE). Heather received her Master's Degree in Biostatistics at the University of Utah. Prior to joining S-SPIRE, she served as a statistician on various studies across multiple clinical disciplines including: biomedical technology, pediatrics, women's health, epidemiology, and chronic illnesses. As a biostatistician, she works with medical professionals to design, analyze, and interpret findings for research studies.
